9th April, 2007.

CHANGES TO SIGNALLING INFRASTRUCTURE :

On the dates shown hereunder, the following changes have been made to the signalling infrastructure:

On Thursday, 18th January, 2007, a modified "WSa" type hand point lever was fitted on the main line points leading into the new Sanctuary Car Sidings. The lever will be secured in the lowered position by a "STP" Padlock & chain.

On Wednesday, 7th February, 2007, two "WSa" type point levers working hand points leading into the Nillumbik Carriage Shed Roads No.s 1 & 2 were removed and replaced with Q.45 type hand point levers, in lieu.

On Monday, 5th March, 2007, Signal Post No.36 at Diamond Valley was abolished as an incandescent signal and a permanently mounted "LED type" Dwarf Signal was provided in lieu.

On Wednesday, 21st March, 2007, Signal Post No.7 at Nillumbik was abolished as a Searchlight type Dwarf Signal and a permanently mounted Light Dwarf Signal was provided in lieu.

ALL CONCERNED TO NOTE AND ARRANGE ACCORDINGLY.

Bruce. N. McCurry,
Signal & Telegraph Sup't,
